

PRESS RELEASE

August 2024 a record month for Toscana Aeroporti: Over 1 Million Passengers

Florence, September 3, 2024 – In August 2024 the **Tuscan Airport System** exceeded one million passengers in a single month for the first time in its history, recording a growth of 6.5% over the same month in 2023. The results recorded were mainly due to the improvement in both the number of commercial passenger flights (+2.6%) and the load factor, which reached 88.0%, an increase of 2.0 percentage points.

The Tuscan Airport System also exceeded the 6 million passenger threshold for the first time at the end of the first eight months of the year, reaching a total of 6.1 million passengers, with an improvement of 11.4% compared to the same period of 2023.

The record trend continues for **Florence's Amerigo Vespucci airport**. In fact, with 356,000 passengers passing through, it achieved the best month of August ever, marking a growth of 6.9% over the same month of 2023. The result is essentially due to the improvement in both the aircraft fill rate, which reached 83.6% and marked an increase of 3.4 percentage points over 2023, and the number of commercial passenger flights (+0.5%). The month's record is led by international passenger traffic (+8.5%), which more than offset the 1.2% drop in domestic traffic. The August 2024 ranking of favourite destinations with scheduled flights sees Paris in first place, followed by London, Amsterdam, Rome and Barcelona respectively.

With monthly records recorded in every single month of the year, Florence Airport reached a total of 2.4 million passengers in the first eight months of 2024, with an overall growth of 16.2% compared to the same period in 2023.

Pisa's Galileo Galilei airport handled 648,000 passengers in August 2024. The 6.3% growth on the same month of 2023 is favoured by the improvement in both the number of commercial passenger flights (+4.3%) and the load factor, which stands at 90.6% (+1.1 percentage points on 2023). Both international (+6.2%) and domestic (+6.0%) traffic grew during the month. The preferred destinations in August 2024 by passengers at Pisa airport were London, Tirana, Palermo, Paris and Catania.

With almost 3.8 million passengers passing through Pisa airport in the first eight months of the year, it reached an all-time high, recording 8.5% growth compared to the same period in 2023.

Toscana Aeroporti S.p.A. is the management company of the Florence and Pisa airports. Founded on 1 June 2015 through the merger of AdF - Aeroporto di Firenze S.p.A. (managing company of the Florence A. Vespucci airport) and SAT - Società Aeroporto Toscano S.p.A. (managing company of the Pisa G. Galilei Airport), Toscana Aeroporti S.p.A. stands out for the complementary nature of the two airports, each with its own specific features: Florence airport focuses on the development of business and leisure traffic through full-service carriers, linking the major European hubs; whereas Pisa airport focuses mainly on tourism traffic operated by low-cost carriers and on cargo flights, paying particular attention to intercontinental connections. The Tuscan Airport System is one of the most important in Italy and is a driver of local economic development in one of the world's best known and most loved regions.
